

WU Li

Senior Partner

Areas of Practice

Dr. Li Wu is an attorney at law and patent attorney qualified to practice in both China and the United States. His practices cover all aspects of intellectual property law. He mainly focuses on providing full spectrum of patent services to the clients, including patent prosecution, invalidation and litigation. Furthermore, he is also very experienced in helping clients setting up their global IP protection and enforcement strategy, in particularly concerning their complex and advanced technology. As such, he regularly represents clients in matters arising from patent infringement, trade secret misappropriation and technology transfer.

As a private practitioner, Dr. Wu had worked as patent attorney in leading law firms in both China and the United States, serving clients including many MNCs. In addition, Dr. Wu had also served as in-house counsel for a multinational pharmaceutical company for their IP related matters.

Before starting his legal career, Dr. Wu had worked as a scientist in the field of neuroscience for more than 10 years, and his work on the regulation of calcium channels has been selected and published by the world-famous scientific magazine Nature (Vol. 419:947-952).
